		Join lengths around 90 degree outside corners	Micro - 5/8" x 5/16"	0.04oz
			Mini - 1 3/16" x 5/8"	0.10oz
			TV Drop - 2"x1"	0.50oz
			Maxi - 2 3/8" x 1 3/16"	0.50oz
Flat Bend				
		Use between 2 lengths that change direction by 90 degrees on flat surfaces Requires care in measuring gap required for each Accessory, then cut straight length(s) end so Accessory fits neatly between lengths	Micro - 5/8" x 5/16"	0.04oz
			Mini - 1 3/16" x 5/8"	0.10oz
			TV Drop - 2"x1"	0.50oz
			Maxi - 2 3/8" x 1 3/16"	0.77oz
Equal Tee				
		Join 3 lengths of same profile	Micro - 5/8" x 5/16"	0.04oz
			Mini - 1 3/16" x 5/8"	0.14oz
			TV Drop - 2"x1"	0.60oz
			Maxi - 2 3/8" x 1 3/16"	0.81oz
Connector				
		Join 2 lengths of same profile on flat surface	Micro - 5/8" x 5/16"	0.04oz
			Mini - 1 3/16" x 5/8"	0.10oz
			TV Drop - 2"x1"	0.50oz
			Maxi - 2 3/8" x 1 3/16"	0.77oz
End Cap				
		Neatly finish open ends	Micro - 5/8" x 5/16"	0.04oz
			Mini - 1 3/16" x 5/8"	0.10oz
			TV Drop - 2"x1"	0.50oz
			Maxi - 2 3/8" x 1 3/16"	0.77oz

Accessory Name	Description	Size	Weight
Circular Adaptor			
		Connect Mini D-Line to flat edge surface boxes with 20mm diameter 3 circular knock-outs	Mini - 1 $\frac{3}{16}$ " x $\frac{5}{8}$ " 0.17oz
Patress Adaptor			
		Connect Mini D-Line(interfaces with 30x15mm only) to round Surface Boxes	Mini - 1 $\frac{3}{16}$ " x $\frac{5}{8}$ " 0.10oz
Cable Inlet/Outlet			
		Takes cables in or out of a Mini installation. Use between lengths on straight runs	Mini - 1 $\frac{3}{16}$ " x $\frac{5}{8}$ " 0.10oz

Installation Tips

Plan your cable path. Check that you have all parts required. Next consider the space that will be required for any accessories needed - Smooth-Fit ccessories give a smooth flush-alignment for perfect finish, but require precise measurements and straight cuts.

Use the accessory part as a template; pencil mark the surface at the shoulder points of the accessory.

These pencil marks indicate the point that the D-Line length needs to measure up to.

example...

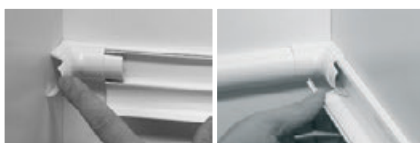

- Measure length(s). Pencil mark where cut is required.
- Use a mitre block and junior hacksaw to cut at the outer edge of the pencil mark.
- Remove the protective film cover.
- Peel & stick.. Make sure the surface is clean & dry. Alternatively lengths can be drilled and screw fixed.
- For easier installation we recommend that horizontal runs are fixed with the click lock at the top and the hinge at the base.
- Take care when positioning lengths, as a strong bond will be created with the surface.

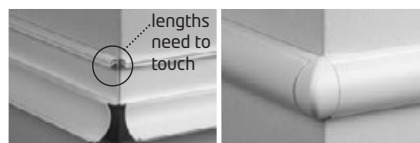

Installing cables & accessories

Lay wires into lengths, place the required accessory over the wires, then close the lid ensuring it snaps shut. The lengths hold the accessories in position.

Internal Bend

External Bend

Flat Bend

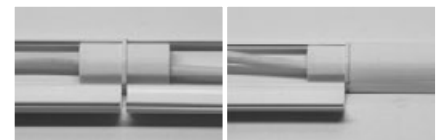

Equal Tee

Cable Inlet/Outlet

Connector

End Cap

It may be necessary to shape some accessories to allow for imperfections on walls.

After Care

D-Line can accept gloss or emulsion paints...
For best results use fine sandpaper to key the surface prior to painting.

Important: It is recommended you leave 45%+ of internal capacity for air circulation.
