

**Safe-D Grip Clips are user-friendly by a design that keeps finger and thumb away from hammer.**

Grip Clips include flat-head nails with 0.1" diameter shafts that enable effective knock-in to mortar and wood; compared to alternative designs with thinner nails, the 0.1" shaft minimizes the risk of a nail bending or buckling in hard substrates.

- Produced from steel, 1780°F melting point
- Flat-head nail sits tight when knocked-in
- 0.1" diameter nail body, suitable for harder substrates
- User-friendly design for easy positioning - keeping finger & thumb away from hammer
- 4x sizes for flat cables
- Raised strip on clip-head prevents cable bruising if mis-hit!
- All nails have 0.1" body dia x 0.22" head dia x 0.98" length
- Supplied in boxed quantity of 100 pcs
