

CABLE MANAGEMENT FOR TELECOMS

PVC RACEWAYS 'QUICK TO INSTALL, LOOK GREAT'
FOR USE 'WHEN TIME, SAFETY & APPEARANCE MATTER'

THE MODERN WAY TO ROUTE SURFACE CABLES

ABOUT D-LINE

D-Line (USA) Inc is a Louisville-based company, with a global reputation for innovative cable management products, that are ideal 'when time, safety and appearance matter'.

Our non-metallic raceways are specified for many popular applications; including the routing of telecom cables...

D-Line's patented ½ round profiles have a hinged and click-lock lid; The hinge is specially tensioned to facilitate the adding of cables.

To complement the lengths, ranges of clip-over accessories, including snap-on corner bends and tee connectors, are similarly designed to be 'quick-to-install, & look great!'

The ½-round shapes blend with decor. As often said, D-Line installations provide a 'finishing touch that creates a lasting impression' - a smart alternative to traditional raceways or channeling walls.

All D-Line products are manufactured in USA or UK to exacting quality standards & certified to international requirements.

½ ROUND MICRO+ RACEWAY

Making cables 'disappear!'

- Providing subtle & discrete appearance
- Preferred by installers
- Address objections to unsightly cables or 'unfashionable' raceways
- Increase 'customer approval' ratings
- Proposed as handy 6.5' lengths (alternative options available)

0.78" x 0.39"

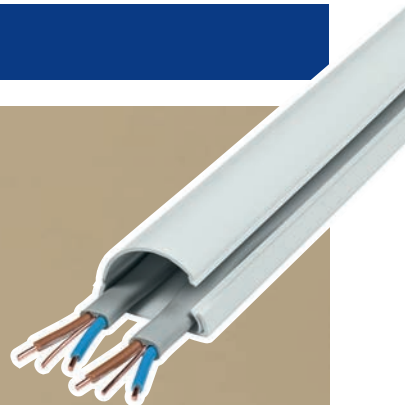

Unique stylish 'D-Line' appearance

½ ROUND MINI RACEWAY

- Installer friendly for speedy installations
- Patented hinge & click lock lid
- Accessories available for perfect finish
- Self-adhesive peel & stick (or can be drilled & screw-fixed)

1.18" x 0.59"

The modern way to hide cables
